Protect your patients by following a few simple rules

- Always choose passwords that are difficult for others to guess. You can change your password on the "My Account" screen after you log in.
- Never give your user name and password to others because it could be used without your knowledge.
- Never leave patient information unprotected on the computer screen while you step away.
- Place all printed documents containing patient information in secure storage or shred them daily to prevent accidental disclosure.
- Obey the golden rule: always handle information about your patients with the same care that you expect from your own physician.

Puzzled by the Terminology? A Guide for Providers

MO HealthNet Missouri's Medicaid Program

MO HealthNet provides health care access to low-income individuals that are elderly, disabled, members of families with dependent children, low-income children, uninsured children, pregnant women, refugees, or children in state custody. Adults in MLI (Medical Eligibility) categories that pertain to persons who are blind or pregnant women receive a full comprehensive benefit package including primary, acute and preventive care, hospital care, dental, prescriptions, and vision. Adults other than blind individuals and pregnant women receive a limited benefit package of services depending on their MLI category. Services are received through a fee-for-service (FFS) or managed care delivery system. Providers can determine whether members are covered by Managed Care or FFS by calling the Interactive Voice System (IVS) at 877-751-2896 and using option "1" or through the internet at www.mohealthnet.com.

The MO HealthNet Fee-For-Service program serves participants not enrolled in MO HealthNet Managed Care, and provides some services not included in MO HealthNet Managed Care. All of Missouri's MO HealthNet providers are automatically enrolled as approved providers eligible to treat MO HealthNet FFS participants. Participants may freely choose which approved provider they go to for care under the FFS delivery system.

MO HealthNet Managed Care serves MO HealthNet Managed Care members in 54 counties of Missouri (see the chart below). MO HealthNet Managed Care members may be seen by any MO HealthNet FFS provider until the member's enrollment is effective in a MO HealthNet Managed Care health plan. MO HealthNet Managed Care members must select a MO HealthNet Managed Care health plan and a primary care provider (PCP) within the Managed Care health plan. Managed Care providers may refer the member to other providers based on care needed.

The MLI codes for adults included in the MO HealthNet program are as follows:

MO HealthNet for Kids

MO HealthNet for Kids refers to the statewide program for low-income children, uninsured children through CHIP, and children in the custody of the state. Children receive a full comprehensive package including primary, acute and preventive care, hospital care, dental, prescriptions, and vision and receive their care through either the Fee-For-Service (FFS) or the Managed Care delivery system, depending on where the individual lives in Missouri (see chart below).

The MLI codes included in the MO HealthNet for Kids program are listed below:

PREMIUM GROUP

Health insurance for uninsured children funded through the Children's Health Insurance Program (CHIP) includes children who must be under age 19, have a family income above 150% and below 300% poverty, have been uninsured for 6 months or more, and have no access to affordable health insurance from \$68 to \$172 per month, based on family size and income.

These children receive the full comprehensive package except they are not eligible for non-emergency medical transportation.

Premiums per family per month start at \$13 and increase depending on family size and income. (See Premiums Chart) These amounts may change in July of each year. Individuals will receive a monthly revision. Individuals who have questions about premiums should call the Premium Collections Unit at 1-877-688-2811.
